The Association of Climate Change Officers (ACCO) is offering a series of 2-day training academies in Western Michigan to help participants build competencies to effectively integrate climate change into their decision-making and professional activities. This series provides participants with training that will prepare them for the Certified Climate Change Professional® (CC-P®) credential exams and will satisfy the corresponding elective requirements by leveraging a combination of on-demand online training resources and in-person cohort training.

Held in partnership with the West Michigan Sustainable Business Forum and the City of East Lansing, participants will learn from experts and community leaders about the implications of climate change, and related opportunities, with a regional focus added for Michigan and the midwestern United States. Professionals across occupations in the public and private sectors, higher education and the NGO community will benefit from this training series.

Delivering Value

Skills and Competencies Addressed in this Academy Series

• Recognizing situations where climate change scenarios affect the organization’s operations, mission and bottom line
• Assessing implications of specific situational outcomes
• Examining enterprise management of climate-related initiatives
• Evaluating climate risks and opportunities
• Educating the organization on managing short-term and long-term uncertainty
• Tailoring communication to different audiences
• Leading organizational change initiatives
• Attributing value to resource consumption
• Extending organizational capabilities and maintaining good stewardship of actions taken through collaboration and partnership
• Developing strategies for bundling, comparing and/or relying upon existing management models

Becoming a Certified Climate Change Professional® (CC-P®)

The CC-P® reflects your capacity to integrate an understanding of climate change and related implications into the day-to-day decision-making required. Earning the credential will lead to increased earnings and recognition.

Completing both 2-day classes prepares participants for the CC-P® exams and will help satisfy requirements for geographic region and general electives.

For Series Registrants:

• All recommended prep materials for CC-P® exams
• CC-P® exam fees included in registration price
• 7 of 14 elective hours satisfied
• Guidance from ACCO staff on earning the CC-P®
